STATE SENATOR GREG ELKINS

March 2, 2026

The Honorable Andy Barr  
United States House of Representatives  
2709 Old Rosebud Road, Suite 100  
Lexington, KY 40509

Dear Representative Barr:

I am writing to share my strong support of the Clark County Fiscal Court's application for Community Project Funding in the amount of \$5 million for the Rockwell Road Sanitary Sewer Extension and Improvements Project.

The proposed project will provide sanitary sewers to the western portion of Clark County that is currently unincorporated; however, it is anticipated that heavy growth will occur in this area since the City of Lexington has expanded its urban service boundary towards Clark County. By constructing conventional sewer systems and retiring two existing package wastewater treatment plants, the area will mitigate environmental concerns, improve water quality, enhance the quality of life, and increase property values. This project will boost economic development by being able to recruit new businesses, support residential growth, create jobs, and develop affordable housing opportunities in western Clark County.

While the master plan for developing the improved sewer system is a huge challenge, the most immediate task is the initial phases of the project that require investment in infrastructure, which is vital to being able to move forward with the greater final development. The initial infrastructure has been funded through a variety of grant opportunities and aims to begin construction this year. However, additional funding will be required to continue the necessary improvements and removal of environmentally harmful package treatment plants.

Please consider giving your support to this project that will improve the quality of life for Clark County citizens and enhance the economic impact of our county and other communities in the 6<sup>th</sup> Congressional District.

Sincerely,

A handwritten signature in cursive script that reads "Greg Elkins".

The Honorable Andy Barr  
United States House of Representatives  
Lexington District Office  
2709 Old Rose Bud Rd, Suite 100  
Lexington, KY 40509

Dear Congressman Barr:

I am writing to share my strong support of the Clark County Fiscal Court's application for Federal Funding in the amount of \$5 Million of the Rockwell Road Sanitary Sewer Extension and Improvements project.

Judge Yates and the Fiscal Court have been working on this project to improve the quality of water and bring economic development opportunities to Clark County. This funding request is to continue the sewer improvements from the initial infrastructure planned in Western Clark County that had an estimated cost of over \$11 million, and should generate many impactful benefits for Clark County.

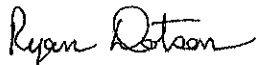

The proposed project will provide sanitary sewers to the western portion of Clark County that is currently unincorporated, however, it is anticipated that heavy growth will occur in this area since the City of Lexington has expanded its urban service boundary towards Clark County. By constructing conventional sewer systems and retiring 2 existing Package Wastewater Treatment Plants, the area will mitigate environmental concerns, improve water quality, enhance the quality of life, and increase property values. This project will boost economic development by being able to recruit new businesses, support residential growth, create jobs, and affordable housing opportunities into Western Clark County.

While the Master Plan for developing the improved sewer system is a huge challenge, the initial phases of the project that requires investment in infrastructure is the most immediate task, and vital to being able to move forward with the greater final development. The initial infrastructure has been funded through a variety of grant opportunities and aims to begin construction this year.

However, additional funding will be required to continue the necessary improvements and removal of environmentally harmful package treatment plants.

Please consider giving your support to this project that will improve the quality of life for Clark County citizens, enhance the economic impact of our county, and other communities in the 6<sup>th</sup> Congressional District.

The Honorable Andy Barr  
United States House of Representatives  
Lexington District Office  
2709 Old Rose Bud Rd, Suite 100  
Lexington, KY 40509

Dear Congressman Barr,

I am writing to express my support of the Clark County Fiscal Court's application for Federal Funding in the amount of \$5 Million of the Rockwell Road Sanitary Sewer Extension and Improvements project.

The Fiscal Court and the Clark County Sanitation District have been working on this project to expand sanitary sewer service in Western Clark County. This funding request is to continue the sewer improvements from the initial infrastructure planned in Western Clark County, which has an estimated cost of over \$11 million, and should generate many impactful benefits for Clark County.

The proposed project will provide sanitary sewers to the western portion of Clark County that is currently unincorporated, however, it is anticipated that heavy growth will occur in this area since the City of Lexington has expanded its urban service boundary towards Clark County. By constructing conventional sewer systems and retiring two aging Package Wastewater Treatment Plants, the area will mitigate environmental concerns, improve water quality, enhance public health, and increase property values. This project will boost economic development by being able to recruit new businesses, support residential growth, create jobs, and affordable housing opportunities into Western Clark County.

The initial phases of the project that require investment in infrastructure is the most immediate task, and essential to moving forward with the greater final development. The initial infrastructure has been funded through a variety of grant opportunities and aims to begin construction this year. However, additional funding will be required to continue the necessary improvements and removal of environmentally harmful package treatment plants.

Please consider giving your support to this project, which will improve the level of public health for Clark County citizens and deliver economic benefits to our county and other communities in the 6<sup>th</sup> Congressional District. Thank you for your past support of this project and for your consideration of this request.

Sincerely,

Christopher M. Davis
