Congressman Barr,

It is the mission of Menifee County Schools to empower future generations to be productive and successful in a global economy. We work towards this goal through collaboration with the community, creative thinking, and providing instructional rigor in order to improve the quality of life for ALL, however, in order for us to do this we must first make sure that we are able to provide a learning environment that is as safe as we can possibly make it.

As Superintendent of Menifee County Schools, I want to provide my support to the Menifee County's Sheriff's Office as they seek funding that will help increase the safety of our students. With this funding, we will be able to update our security systems in a way that will allow us to limit and monitor access to our buildings and individual classrooms through the installation door access control systems. Additionally, the installation of state-of-the-art security cameras and software will allow the Sheriff's department to remotely monitor and provide quicker and more efficient responses to the needs of the school district in the area of school safety.

Through our close collaboration with the Sheriff's department and our School Resource Officer, we have identified both areas of the highest priority.

Sincerely,

Timothy D. Spencer, Superintendent  
Menifee County Schools
