This letter is in support to the following areas be connected to city sewer. Bob-O-Link, Hammond Road, Primrose, Westwood and Rock Creek is the areas of concern. These areas are prone to septic system issues and would help clean our county up if they were connected to city sewer. These areas have older homes and the soil is not the best for septic systems. This makes repairs to the exiting septic systems very difficult. If you need any other information please let me know.

Thanks,

Timothy E. Wright RS
Public Health Director
