Dear Congressman Barr:

I want to thank you for your ongoing support for the residents of Menifee County. I support the Menifee County Sheriff's Office program to provide upgraded cameras and card access to the buildings that my children use daily.

I am a retired veteran of the US Army of 24 years and a retired Law Enforcement Officer from the Kentucky State Police with over 19 years in service with them. In both of my professions, I saw first hand how denying access to vulnerable areas is paramount to keeping personnel and sensitive items safe. I know you will agree as a fellow father that there is no more valuable and sensitive items than our children. Too often it is during the aftermath of a tragic event, that steps are taken to improve something that was known to be a potential issue prior to the event. I feel strongly that the system upgrades will go far in bringing a stronger hedge of protection around our schools.

The school district has worked hard with what they have however it has not been enough to take all the necessary steps for providing security to all areas. The fiscal burden is too great. The request for funding by our local law enforcement asset is the only real way these needs will be met. I ask you as first a father and then as a veteran of the military and law enforcement to please help with this funding to secure the safety of our future, our children. Please contact me if you need further information. Thank you for your time and consideration.

Sincerely,

Mr. Aaron W. Brown

Dear Congressman Barr:

As a parent of a high school student and preschooler, the safety of my children is my utmost concern. Any additional safety measures that can be added to our schools to help provide an added layer of security is much needed. My family and I fully support getting updated security cameras and door card access in our schools of our district. Please help keep our children safe at Menifee County Schools.

Sincerely,

Ashley Sheets,
Mother
